# About Renac

RENAC Power Technology Co., LTD, is mainly engaged in the production of photovoltaic (PV) grid-tied inverters, hybrid inverters and Power station intelligent cloud solutions.

By providing a series of rigorous market evaluation, product development, quality control, competitive quantity discount pricing and first class technical support, Renac Power has devoted itself to be a leading worldwide OEM/ODM supplier of grid-tied inverters and solar storage products. Renac Power recognizes that OEM/ODM customers need cost-effective, high-quality, stable products and experienced technical support to help get their products to market quickly.

Renac Power guarantees reliable product development and consistent manufacturing quality, from raw materials to finished products, for you and your customers.

Currently Renac Power has developed into a comprehensive energy technology company integrating "core equipment products, intelligent operation and maintenance of power stations and intelligent energy management".

## ▲ Renac Power Advantage:

### Efficiency

- High efficiency across wide operation range
- Low turn-off DC voltage
- Intelligent MPPT algorithm

### Reliability

- Top materials suppliers
- IP65 class protection
- Life time and thermal analysis
- Over 50 test items
- Over 10 years experiences on PV inverters

## Core Competences

### Intelligent

- Interactive information with APP
- Remote active/reactive power limit control
- Remote firmware upgrade
- Monitor the PV string by inverter

### Flexibility

- Wifi, Ethernet, GPRS, RS485, RS232
- Centralized O&M Cloud center
- OEM & Customized service

# Renac Products

## On-Grid inverter

R1 Baby Series (NAC 1 - 3K)

R1 Kiddy Series (NAC 4 - 8K)

R3 Micro Series (NAC 6 - 15K)

R3 Pro Series (NAC 20 - 33K)

R3 Plus Series (NAC 50 - 80K)

U1-Grid American Series  
( U1-GRID-6.0/U1-GRID-7.0/U1-GRID-7.6/U1-GRID-8.6 )

## Hybrid inverter

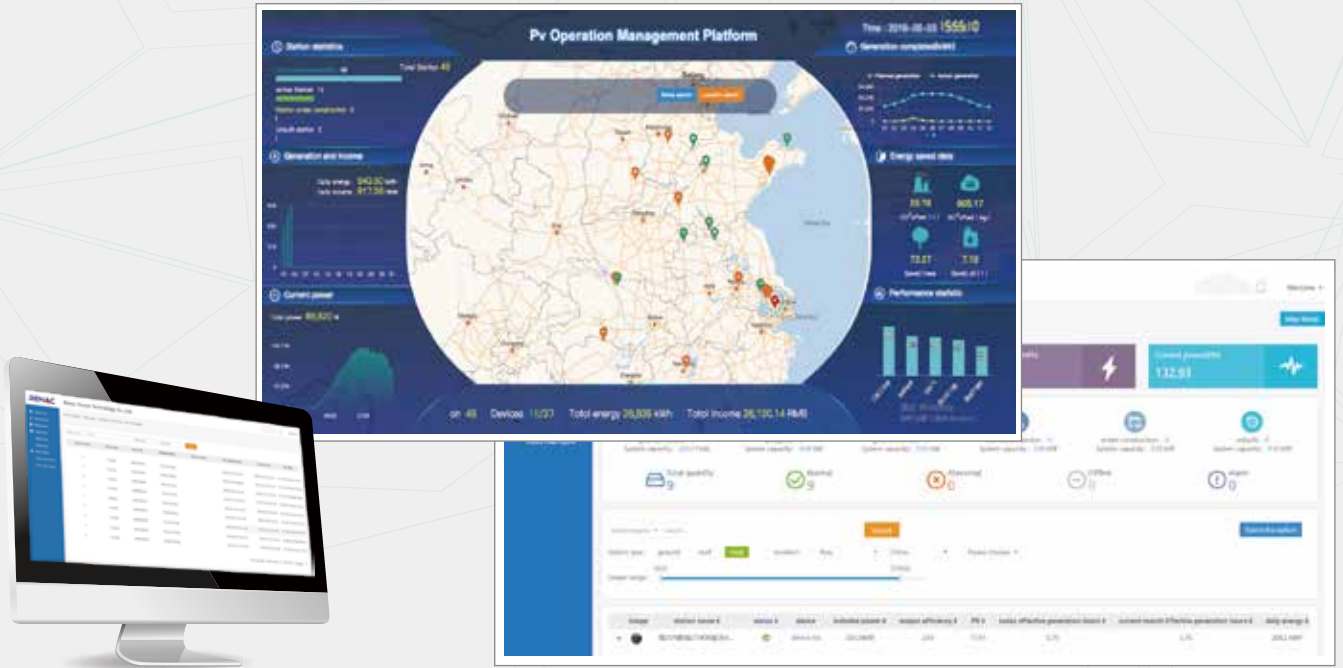

N1 Hybrid Series  
( ESC3000-DS / ESC4000-DS / ESC5000-DS / ESC6000-DS )

U1-Hybrid American Series  
( U1-Hybrid-6.0/U1-Hybrid-7.0/U1-Hybrid-7.6/U1-Hybrid-8.6 )

# Power Station Intelligent Cloud Solutions

Provide customized software development service on project management and monitoring platform

## OEM / ODM Service Flowchart

### Service Provided

	Market Analysis	Proposals	Electronic Development	Product Manufacture	Marketing Package
	Spec Study	Discussion	Mechanical Innovation	Quality Control	Technical Support
		Project Initial	Simulation		Feedbacks Follow-up
			Experiment
